Subject: Riverside Speed humps [mountains]

Dear Councillors and Mr. Zerr,

I am writing on behalf of myself, Tracy Connors and my husband Lindsay Connors, of 2235 Riverside Drive, regarding the issue of the speed humps installed on our street.

We would like to go on record to say we are completely against the installation of the speed humps on Riverside Drive. Our reasons are as follows:

The speed humps were not installed with proper process being followed, as now identified by recent information gathered and posted on the Seymour Valley web site. We found it hard to believe these humps were passed by majority when originally proposed and now understand that many irregularities in proper procedures took place which resulted in these speed humps being installed.

It is absolutely not possible for us to drive our vehicles over these humps as communicated by the district in the original proposal. We have further concerns about potential accident or injuries, which could be caused if these humps are approached at the posted speed limit. We feel we have been misled and want them removed. Reducing the height is not an acceptable solution in our opinion.

We understand council may have been misled by persons suggesting they represent our view. This group, Seymour Valley community association, have

never contacted us nor have we received any communication or information from

this group at any time. We believe this group has been representing us without our knowledge on issues which are important to us. This misuse of power and misrepresentation of our views is of great concern for us and we feel quite angry and betrayed by these individuals. This group represented

by Ray Burns, clearly do not represent our views nor that of what we believe

is the magority of the residents of Riverside Drive.

We fully support Mr. Holland petition and urge you to remove these humps and

follow proper process in reviewing speed issue on our street.

We would like to know what action is planned at this time for removal of these speed humps. You can contact us via this email address, via mail or phond at 604-929-8010 at your earliest convenience. We look forward to your

reply,

Sincerely,

Tracy and Lindsay Connors
