CC: Councillor Bill Denault <bdenault@dnv.org>, Councillor Doug MacKay-Dunn <macdunn@dnv.org>, Councillor Ernie Crist <ecrist@dnv.org>, Councillor Heather Dunsford <hdunsford@dnv.org>, Councillor Janice Harris <jharris@dnv.org>, Councillor Lisa Muri <lmuri@dnv.org>, Mayor Don Bell <dbell@dnv.org>

Dear Mayor and Council

Mr. Crist is absolutely correct.

It is barbaric to close our eyes and pollute our streams and oceans the way we do. Our North Shore communities are the most significant polluters of the waters of Burrard Inlet. We are in non-compliance with environmental laws in this province.

Our contaminated lands leachates, storm sewer run-off and sewage non-treatment are things which a community which prides itself on environmental concern should be ashamed of. No private company would be allowed to disregard the law and pollute this way.

I urge Council to commit to environmental protection by prioritizing and funding improvement of our sewage treatment facility - for a start.

Sincerely
Angela TRudeau
