Dear Councilor Crist,

After reading your comments to Mr. Young of the Rec. Commission regarding the inclusion of the word "Health" in the Rec. facility name, I felt I had to comment.

I am a telecommunications consultant and have done various projects for Health Regions in the province i.e. North Okanagan Health Region, Simon Fraser Health Region and the list goes on. The reason I question your comment, understanding that you want to increase the profile of the Rec. Centres, I don't think the use of the word "Health" would be wise. I do know that many of the facilities are used by the health region for things such as physio Therapy for stroke and heart patients, BUT, to make it appear by using the word "Health" in the facility name may be misunderstood. Do I go there for my flu shoot? I don't think so.

I do not know if our Rec. facilities "are not be used" up to their capacity, but you must be very careful what you try to imply in attempting to attract additional users.
