Your Worship & Members of Council,

Attached is my annual reminder of the hazards imposed on our community due to woodburning fireplaces. The status quo is not an acceptable option. Please visit the site [burningissues.org](http://burningissues.org)

Yours truly,

Corrie Kost

# Burning Issues

*A project of Clean Air Revival, Inc.*

Help us reach more people with this message.

Thanks to Lynne Pfeiffer of The Imaginary Press and Billy Ray Boyd for creating our 2001 poster.

Cut poster and put on the bulletin board at your work, dorm, market, or kiosk.

### **The *other* secondhand smoke**

PM-10's are the most dangerous component of woodsmoke -- particulate matter "splinters" so tiny, they bypass your bronchial filters, penetrating deep into your lungs where they lodge and do their damage!

**<http://burningissues.org>**

Chosen as a site of educational excellence by the BBC in 1999.
