Dear Editor:

In Wednesday's NSN article 'NV District Applies for Art' I believe that by abbreviating Councillor Denault's quotation, readers were left confused & perplexed over his true meaning.

As transcribed Mr. Denault said, "I've got an idea. You could rearrange these blocks. It looks like a hand with an extended finger. We could put it down on the waterfront & call it Pheifer's Finger."

Quite frankly, I'm surprised such an insulting remark didn't make Quote of the Week. Yours truly, Dave Sadler
