Dear Editor:

A Lynn Valley delegation appeared before District Council asking that they acquire Phifer's Fountain, the wooden sculpture currently in front of 200 Granville Square in Vancouver.

Personally it's not my cup of tea. However the idea did not deserve the ridicule & insulting comment of Councillor Bill Denault.

As transcribed Mr. Denault said, "I've got an idea. You could rearrange these blocks. It looks like a hand with an extended finger. We could put it down on the waterfront & call it Pheifer's Finger."

How many more months until the next election???

Yours truly, Dave Sadler
