Dear Mr. Pucci;

I have received a copy of your letter addressed to the District of North Vancouver regarding Water line shut off valves.

Your suggestion that the water pipes in this particular area in Lynn Valley should be raised to make them level with the water line makes sense to me. As you have also pointed out, it would save time in an emergency since the debris including silt etc. would not have to be removed first if and when an emergency arises.

I have turned this matter over to Mr. Gavin Joyce our Engineer for his consideration and I trust that he will get in touch with you to give you his own professional opinion. I will also send a copy to the Mayor and Council as well as to our Municipal Manager and the Federation of North Vancouver Community Associations FONVCA.

It is always helpful if people such as yourself who have experience in such matters make suggestions for the improvement of our services and to save taxpayers money.

Thank you for bringing this matter to my attention

Yours truly,

Ernie Crist
