Mr. Howie;

On Monday June 17-2002, I submitted a motion to Council requesting a balance sheet of DCC income versus the total expenses to the District as a result of the reconstruction of the Lynn Valley Core Area. The rationale for my motion was that my previous request for this information had not been adequately addressed.

On Monday June 17-2002 District Council refused to accept my motion to revisit this issue and receive this information.

Notwithstanding this, as an elected representative, I am entitled to know the exact figures. I therefore request that, notwithstanding the refusal by the CCA endorsed District Council, you provide me and subsequently the District taxpayers with this information under your own signature.

As I enunciated in my motion previously, what I need to know is the total amount the District received in the form of Development Cost Charges (DCC's), as laid out in our Bylaw, and the total cost to the District arising from the redevelopment of the Lynn Valley Core, including the final and total cost of all necessary road reconstruction, final pavement and other costs as the case may be.

Thank you,

Ernie Crist
