Ms Hilsen .

This is further to your e-mail stating your reasons as to why my motion "Request to Terminate Unjustified Sanctions against Councillor Crist" cannot be dealt with in public. If I understand you correctly it is because staff persons can be identified. You may have noticed that I did not mention any names in my motion.

In any case such consideration on your part are in my opinion not valid. You did not, nor did Mayor Bell who conducted a campaign of revenge and harassment against me apply such criteria when my name was identified in connection with this issue and was dealt with in public.

I am not aware that you objected when the shoe was on my foot, unjustifiably so I might add. You cannot have it both ways Ms Hilsen. You cannot on one hand allow a Show Trial and Witch Hunt to take place in full view of the world and on the other hand refuse defense against such monstrous allegations not to take place in public also.

Such methods are not standard other than maybe in banana republics.

I request once again that the matter be dealt with as part of a public agenda item. I need to reiterate again that unless you provide me with a legal opinion on the validity of your posture that this cannot be so, I must ask that this item be dealt with in public.

I am looking forward to your early reply.

Thank you,

Ernie Crist
