Subject: RE: Capilano Suspension Bridge Unauthorized Construction

Mr Zerr:

I would like to get an explanation as to how this atrocity was permitted to occur - specifically,

- 1) Did anybody (staff) know anything about this ?
- 2) Did anybody authorize this and if so WHO or on whose behalf was this done?
- 3) If not, what steps will be taken to correct this and will it come before Council?
- 4) Can you provide a report or do I have to submit a motion through agenda channels for the record to open the gates of hell, seconder or no seconder?

Thank you,

Ernie Crist

Subject: Capilano Suspension Bridge Unauthorized Construction

Mayor & Council - attached are some photos of the so-called "canopy walkway" that has been constructed on the Capilano Suspension Bridge property without any building or environmental permits. Personally, I was shocked by the extent of the work. This is obviously a major construction project. The building materials were trucked in from the West Van side of the river so no one on this side even noticed what was going on. The last photo shows the West Van access point.

-Brian
