Mr Zerr:

I think this is a great idea and is in line with my own suggestion. However, I am somewhat curious as to why the District would be involved in trail building in a Provincial Park. The point I would like to have clarified is, are we paying for labor, manpower, material etc? and if so, to what extent? What is the cost and did this come before Council and if it did when was this the case and/or who authorized this? I would appreciate an answer.

Thank you,

[Ernie Crist]

Ernie,

I just wanted to let you know about a current project we are working on with BC Parks and the District of North Vancouver.

With the permission of BC Parks and the DNV a new multi-use trail on Mt. Seymour is being constructed. We will be having a trail day on Sunday Aug. 10 to showcase this relationship. We'll be at the Old Buck parking lot from 9:00am until about 3:00pm.

John Henry will be cooking up some hamburgers for the volunteers who come out to work on this trail!

See attached Press release for details

Feel free to stop by!

Sharon.
