Subject: RE: Statement of Financial Information for Fiscal 2002

Dear Dr.Cost:

Thank you for your input. Your criticism is justified. However, there are many issues where we fail the mark.

In light of this it should not come as a surprise that this important document was dispensed with without much ado. I should have been more alert. It points to the need for more and better communication. Thank you for voicing your concerns.

Yours truly,

Ernie Crist

Subject: Statement of Financial Information for Fiscal 2002

June

25/2003

Your Worship & Members of Council,

The District of North Vancouver held a Special Meeting of Council on Monday June 23/2003 in which agenda item #1 was to deal with the approval of the Statement of Financial Information for Fiscal 2002. I had previously commented that there should be some time interval between the public access to the Financial Statement and when it would appear as an agenda item at a Council meeting where the public could comment. The Community Charter, to come into effect next year will require 14 days for the public to examine the Statement before there would be a public meeting.

So what did the District do? Council failed the test of leadership by not allowing the public an opportunity to examine the statement before adopting it. In an unprecedented move, the document was released just minutes before the Council meeting, without allowing any public input, then when tabled, adopting it with not one word of debate! Needless to say, the published Council agenda did not indicate that public input would not be allowed on this item. Some accountability! Some leadership!

The relevant report has now been posted on the District web site at:

http://www.dnv.org/upload/documents/Council_Reports/00212.pdf

What struck me most was:

- how much certain staff members are being paid
- the apparent lack of accountability when numbered companies are listed as receiving

payments

- the inclusion of roads as "physical assets" ... that the district may borrow against?
- the \$5 million difference between 2002 Actual and Budgeted Revenue listed as "Other"
- some \$14 million difference between Actual and Budgeted for "Fund Balance"

There are numerous other questions, but without an open forum the public (and I suspect Council as well) will be kept uninformed. I can only hope that someday we will have true accountability in local governance.

Yours truly,

Corrie Kost, 2851 Colwood Dr. North Vancouver, V7R 2R3, Tel: 604-988-6615
