Ms Hilsen:

I see from your note attached to my report re "10 Year \$ 4 Billion Transportation Plan" dated Nov. 6-2003 that you misunderstood the intent of my e-mail regarding this agenda item.

You may recall that you asked in your e-mail whether I wished to have my report included as part of the Translink debate on Nov 24. I agreed believing that my motion would be debated. However, this was not the case.

Since my report was submitted on Nov 6, which is prior to the staff motion of Nov 13, I would appreciate that you list my report separately and before the staff report and that you revise the upcoming agenda accordingly. Although the two reports may be related, my report is clearly NOT part of the staff report as you suggest in your note.

I was told by your staff that this would be done. However, I see that this is not the case. Thank you for correcting this error.

Ernie Crist.
