Dear Mr. Jarvis:

I salute your stand on the Ferry issue. It is indeed incomprehensible that the government would consider having the Ferries built in foreign yards when the economic spin-offs for building them at home are so patently obvious. The Government is carrying "Free Enterprise" definitely too far. It is tantamount to cutting off your own nose to spite your face.

As you are aware the District of North Vancouver passed a resolution in support of the Marine Workers and Boiler Worker's Union stance some months ago.

Yours truly,

Ernie Crist, Councillor,
District of North Vancouver.
