Dear Councilors,

I live on West Queens Road (150) and I am writing to express my opposition to the development being proposed. While I am entirely in favour of seniors housing on the 100 block (north) W. Queens and West 29th Street site, I am gravely concerned with the design of the facility. As well, the proposed density far exceeds that suggested in the OCP.

I urge you to reject the current development and have the builders go back to the drawing board. Surely it is possible to design a building that is attractive, medium density and allows for view corridors. Help!

Sincerely,

Lee Gainer
150 West Queens Road
