Whereas the Swimming Pool at the Ron Andrews Recreation Facility in the District contains too much Chlorine and

Whereas this is hazardous to the public's health and is potentially damaging to people's eyes, including those of children and

Whereas complaints by clients to staff were IGNORED AND/OR explained away as being the result of a combination of circumstances including as being too costly to correct and

Whereas this is not an acceptable reason when the public's health is at stake and

Whereas this state of affairs could result in costly damage suits against the Recreation Commission

Therefore be it resolved that the North Vancouver Recreation Commission be requested to IMMEDIATELY address this matter and do so notwithstanding the cost factor as has been stated
