Jim,

Your motion perfectly sums up this issue. I wholeheartedly agree with it.

The only additional comment, or 'whereas', might be - in order to prevent further such fiascos in the future - to state that the District should consult with the RCMP's Block Watch office in the future when/if any changes be suggested that could affect Block Watch parties. I have copied in Ms. Sandy Potter from this office.

The rationale for this addition is that in neither of these two instances (liability insurance nor processing fee) were the RCMP contacted or did they know about these changes. Had they been approached in the first place, you might not have to prepare this motion now. Communication with the affected parties is key.

Good luck with your motion. I will support it when it will be debated by Council.

Best regards,

Eric G. Andersen
