Dear Mrs Craver:

You have asked why the District is allowing this desecration of the forest. The answer is because the District has about as much appreciation for the environment as Attila had for the art treasures of Europe. Not everything, but the whole thing is wrong and was right from the beginning - but they don't get it. And let's face it, they never will - the people will have to teach them a lesson.

Number two, most Councillors truly believe that the Mountain Bikers will determine the outcome of the next election - big mistake, but some people never learn, like George Bush and his Cowboys in Iraq - the comparison is incidental but the principle is the same.

Ernie Crist
