A MESSAGE FROM ERNIE CRIST.

This issue should be addressed as part of a far more comprehensive approach than is possible through Jim Cuthbert's motion.

The residents have formed an organisation which will and should address all issues in a comprehensive manner. They will be assisted by our planning staff.

The guidelines for the negotiations will be "all for one and one for all". Rather than deal with issues in isolation from one street or one house to the next, resulting in divide and rule, the diminution of liveability and leave the residents at the mercy of the developers, the whole affected area should be treated as one.

Jim Cuthbert's motion will therefore constitute nothing more than throwing a monkey wrench into the process. It may well be that such a barrier should be built but there is surely more to this whole issue than building a barrier.

Ernie Crist

Susan Howard

You're more than welcome Susan.

Forwarding your email to council@dnv.org would communicate your support to the rest of Council before the Oct 3rd debate (#7 on the agenda).

Please note there is a public input period from 7-7:30pm prior to each Monday night Council meeting.

Jim.

Jim Cuthbert MSc. RPBio.

Subject: Fern St. Issue

Hi, Jim

Having received the notice of motion regarding Highway 1 noise abatement measures my husband and I want to thank you for taking an interest in our neighbourhood. If the provincial Ministry of Transportation does decide to install the noise buffers it will have a major impact on our comfort level at home. As we are unsure of what is going to happen on Bruce Street any decrease in stress level will be greatly appreciated.

I will keep in touch on the Fern Street Neighbourhood issues and thanks again for your support.

Also, thanks to David for his continued hard work to try and resolve these problems.

Sincerely

Susan Howard
