Subject: Found Body in Lynn Canyon

Early this morning (Sunday) North Vancouver RCMP responded to the Lynn Canyon Park on a report of a backpack that had been found floating in a pond at that location. The back pack had identification inside of a 38 year old male from Vancouver. The North Shore Search and Rescue Team were advised of the situation and at first light this morning they aided police in searching the park and the water rapids area for the missing male. No signs of the male were originally found. The male had not been reported to police as missing.

Later this afternoon, a Park Ranger employed by the Lynn Canyon reported that he may have spotted a body in the water 10 meters north of the "Twin Falls" area and approximately 20 feet deep. The RCMP Dive Team arrived on scene shortly later and confirmed that it was a body of an adult male. The body was airlifted out of the scene by helicopter. An autopsy will be performed on the body by the Vancouver Coroner's Office to determine the cause of death.

The name of the deceased is not being released pending the next of kin notification. Foul play is not suspected.
