Actually Councillor Crist, with all due respect, that won't help anyone get a better understanding of the issues. Your letter was filled with half-truths, misinformation and it clearly was written by someone who knows very little about the issue of mountain biking or the impact well-maintained trails have on the forest ecosystem.

If you wish to actually learn about this I will again offer to accompany you on a tour of the trails on Mount Fromme. It only seems fair that you should lay eyes on our trails before you make outlandish statements about them.

Dear Mr. Williams:

Thank you for your message. For a better understanding of my view on this issue you may wish to read the NS NEWS of Feb. 23, 2005, Mountain - Biking.

Yours truly,

Ernie Crist

Subject: fromme

It sounds like the correspondence regarding this matter is decreased. I just read Cam and Crist's correspondence and know that any logical person who reads it will also realize that Cam is **EXACTLY 1,000,000%** correct. The facts that he presents speak for themselves and can **not** be ignored when these 'trail hating' situations arise. Freeriding will not go away, therefore it must be embraced. We can work together to make everyone happy once this is realized.
