Dear Mr. Perfitt:

I wholeheartedly agree with your objectives. I believe that accommodating biking on our streets to the best of our ability is progressive and is an idea whose time has long been upon us.

I need to point out that neither the plans for designated bicycle lanes in Lynn Valley were implemented nor has any substantial money been allocated to accommodate biking anywhere else.

There has, however, been a substantial amount of money spent on Mountain Biking, not to speak of the proposal to spend close to a million dollars on a parking lot in a forested area of the District to accommodate this extreme and environmentally destructive sport at a time when money allocated to improve the safety of street biking has been meagre indeed.

Yours truly,

Ernie Crist
