A MESSAGE FROM ERNIE CRIST;

A great story by Trevor Lautens in the NS NEWS, Friday March, 4,2005 re Mountain Biking. Mr, Lautens, once again has shown what the art of writing is all about. This is irrespective of the pros and cons of this extreme sport. When you are finished reading the column you know what the controversy is all about. What is more, you will enjoy the time you spent reading it. I guess this is what creative writing is all about.

Yours truly,

Ernie Crist.
