Based on Councillor Crist's fascinating, and yes startling, theory about the tree cutting culprits, the police have put together this composite drawing.

Mrs Craver;

I suggested to James Ridge last night (for a moment he looked at me as if I had gone off my rocker) that since it is no longer fashionable to blame the Christians for such deeds maybe we could blame the Communists. For I said, in the 22nd Party Congress held in 1970 or there about, it clearly stated that cutting down trees on Fromme Mountain must be our top priority.

Dear Mr. Crist: It seems the original CBC BC news story on the clear cut on Fromme has been "edited". You can see this for yourself. I saved and printed the original story on Word, for future reference. CBC removed "It's in an area popular with mountain bikers." Take care.
