I realize that they do most of the building, and that's why the trails are awesome. But if they have a way of addressing environmental and governmental concerns, I don't understand why there is such an uprising regarding the land use; the land is being maintained and monitored without major expense to the government. We ride And take care of the hills and everyone is happy.

Steve, Councillor Walton here. The North Shore Mountain Bike Association does most of the trail bulding on our mountains and does a great job. The future of our trail maintenance lies in a sharing of the responsibility. I think your comments are on track and I appreciate your taking the time to write to us. Best wishes Councillor Richard Walton (and a mountainbiker)
