Ms Hilsen:

The meeting regarding the Alpine Report was to be dealt with in public on April 11. A statement to this effect was made by the Mayor. This was after the original date had been postponed once already.

I understand now that this item will NOT be dealt with in public but at a workshop at some future and as yet indefinite date.

I further understand that this decision was made by, I don't know who, but certainly not by Council.

I must protest against this method of running Council business. The public was given to understand that this item would come forward on April 11.

Please advise as to who made the decision to delay and instead of putting it on a public agenda, deal with it, in what appears to be a around about way.

I would also appreciate if you could let me know when the McKeon-Homes claim to be compensated for expenses contrary to Council policy will come before Council.

Thank you,

Yours truly,

Ernie Crist.
