Subject: Mountain Biking on Fromme

Councilor,

My name is Justin Goodkind. I live in Los Angeles, CA. I am a mountain biker who plans annual trips from Los Angeles to Vancouver specifically for mountain biking. I am typically accompanied by two friends who also mountain bike. Our trips are the highlight of our year. We save our money so that we can take a vacation in your city. The one paramount reason we have chosen to make the 3100 mile roundtrip drive is because no other mountain biking destination compares to the trails on the North Shore of Vancouver. I am petitioning a larger group of friends to make the road trip again this year and would hate to have to cancel because of a moratorium placed on mountain biking. Please reconsider your current stance on this issue as I am not the only person who travels to Vancouver for mountain biking. I believe you would be robbing your community of a valuable source of income.

If you've never mountain biked, give it a try. I'm sure you would enjoy it.

If you have questions, please feel free to call me at 310-338-7596 (work) or 310-613-8399 (mobile).

Sincerely,

Justin Goodkind
