All - analyzing the new council meeting calendar for the year 2006 a very interesting aspect has presented itself.

By holding council meetings on Monday and allowing every 4th meeting to be a special, council has effectively given itself a 69% raise, from \$193.18 to \$326.92 dollars per hour based on a 4 hour council meeting, holding it on Tuesday would give us 6/26 (~25%) better presentation for concerned citizens to present their issues.

I think we should petition the District Council to see if they would be accepting of this move, council is very pressed for time during current meetings and to simply hold it on Tuesday and have approximately 25% more time available for public input, its a win / win for both council and the shareholders of the District.

Dave Dixon, P. Eng.
