Hello Corrie,

I went to the email files for FONVCA today and noticed that a couple of my emails were entered there but not all. Of more concern to me was that the emails from Cathy Adams of April 21 and 25 were not in evidence. My concern is that if there is going to be any discussion at the next meeting of any respect to CGA or myself, then those emails should be part of the background available to all FONVCA members.

In the same vein, I believe that my emails to you of April 18 and 26 should be included and available to members.

thanks, Doug
