Dear Mayor and Council:

I have to once again give you "one hand clapping" for this "mindful" mess that the mountain bikers have wreaked on the forest floor. Look at the damaged tree roots, and dug up forest floor mined for its "organic gold dirt" This is Eco-Vandalism! Common sense would have closed the trail completely where it turns into a stream or two during the rain -- not "reroute" it. It is not as if the MTBers "need" it!

Now are you still feeling proud of yourselves? That new trail will also become a flowing stream in time. Then what? --- Reroute and build some more in order to appease those "darling" bikers? The insanity never ends. Meanwhile, where has all the wildlife gone? They're not hanging out with the trail builders, that is for sure.
