And this just came up on the news, today: Prime Minister Stephen Harper today launched the National Conservation Plan (NCP), which will provide a more coordinated approach to conservation efforts across the country with an emphasis on enabling Canadians to conserve and restore lands and waters in and around their communities, and making it easier for citizens living in cities to connect with nature. - See more at: <http://www.pm.gc.ca/eng/news/2014/05/15/pm-launches-national-conservation-plan#sthash.PY7xpVLX.dpuf>

This includes wetland and habitat restoration....How can we make this work for us?

Another reason DNV needs to stop cutting up our forest to appease the NSMBA.

I find it strange whilst there is a pending 'Independent Fromme Mountain Environmental Trail Assessment' through the DNV Parks Board, that we have a green light on a parking lot which will do nothing but encourage more use of the Fromme Trail system before the assessment comes to its conclusion. The only pragmatic step would be to wait for the assessment and then proceed or not with this use of taxpayers dollars.
