Dear Editor,

I apologize as my letter is in error as there is only one parking lot for the mountain bikers proposed for Lynn Valley. The cost is about \$400,000.00 and this money should not be spent on a special interest group called the North Shore Mountain Biking Association. It should be spent on repairing infrastructure for the benefit of the taxpayers who live here now.

Dear Editor,

I received information regarding a

**Fromme Mountain Parking and Staging Area information session on May 20**  
[click here for details](#)

and I urge everyone to attend.

I find it interesting that there was no public debate on this issue. If the citizens of the DNV are going to be paying approximately \$1 million to facilitate a very small special interest group to park in our community in two locations (Upper Mountain Highway went through with the budget) then there surely should have been some public input.

This \$1 million should be spent on replacing the failing asbestos-lead piping throughout the municipality; as it stands now homeowners are responsible even though the risk is known.
