**Subject:**NEW MTB Trails Reports (24 hours on Fromme Mtn.)

**Date:**Mon, 11 May 2015 12:55:44 -0700

**From:**Monica Craver <[mecraver@shaw.ca](mailto:mecraver@shaw.ca)>

**To:**DNV Mayor and Council <[council@dnv.org](mailto:council@dnv.org)>

**CC:**[fonvca@fonvca.org](mailto:fonvca@fonvca.org)

Dear Mayor and Council: One more email, today.

There are just **too many environmental infractions**, like the following, happening -- pretty much daily -- under the charge of the NSMBA and their corporate cohorts, plus other MTBer "lone rangers", in order for me to try to keep on track of it all. I don't need to.

Anybody can keep an close eye on Trailforks.com for the ongoing mayhem, inflicted by the MTB sport...(but you don't care, do you?)

The NSMBA clearly just "makes it up" as they go along. Trails here today, gone tomorrow, "resurrected" in the future... *ad nauseam*... They build as they wish, changing their minds all the time, and the forest is paying dearly for it...

All this "sustainable trail building and off-road/trail riding habits" is becoming a long running joke played on us all by the wily NSMBA and others. And DNV allows this non-stop NSMBA trailbuilding-on-steroids ecological vandalism to continue...!! Continue to remain silent if you support this "make it up as we go along" mentality of the MTBers -- the forest, wetlands, and watersheds be damned!

**The new sections** are riding really well - **fresh packed dirt** and perfectly spaced switchbacks. Thanks to everyone who worked on this!

Ran into Pete doing some work on **even more new sections** of trail on the lower part. **All the new switchbacks** are running great. Thanks Pete!
