Subject: Monday Night MTB MONSTERS in MTN. VIEW PARK

Date: Tue, 12 Jan 2016 11:11:30 -0800

From: Monica Craver <mecraver@shaw.ca>

To: DNV Mayor and Council <council@dnv.org>, Susan Rogers <rogerss@dnv.org>, Gavin Joyce <JoyceG@dnv.org>

CC: fonvca@fonvca.org

Dear Mayor, Council and DNV Parks: **Do you give a "darn", at all? And the promised large signage "reminding" those night riding fools to turn off their darn lights -- has yet to materialize....**the wheels are chugging so slow for this Upper Lynn Neighbourhood, but when the MTBers say "Jump!", DNV asks, "How high?") **How many more years will we have to put up with these very disrespectful night riding MTB MONSTERS in the woods?**

20 MONDAY night riders exited Mountain View Park with their 20-40 LED lights (helmets and bikes), last night around 9pm. They were a very anti-social bunch, who showed no respect for the neighbourhood -- lights a-blazing, like some kind of siege! And, riding during the pouring rain. So "sustainable" and "caring" for the trails, especially Lower Griffen Switchback Trail, that flows like a creek during such rain! Bravo, DNV! Keep on supporting your scofflaw "monsters of the woods" by doing nothing to stop this: <https://youtu.be/pOXYaYfFLyo>

Here is another "fine" example of a well-known MTB MONSTER, below... endlessly digging, building new trails, and abusement park structures in the public forests (NSMBA photo, of course). How much longer will DNV keep aiding and abetting these ecological vandals in the woods, I wonder? How much more will DNV, the media and other sources keep adulating this MTB MONSTER? I would expect more common sense coming out of District.... 😞 But all I see is complacency and apathy as the NSMBA continues to dig, cut and build new trails and structures --- even illegally on CMHC Crown land (taking advantage of every loophole they can find to remain the scofflaw group that they are) Ugly little people... Monstrous, indeed! You do become the company you keep, Mayor and Councillors! I don't respect that sort of thing.

DNV has created these MONSTERS in the woods, especially, "D(igge)R. Jekyll & Hyde". Our public forests should not remain

MTB Abusement Parks, -~~from Monica Crowder~~ and

(So when should we expect proper signage telling the Night riding fools to turn off their damn helmet and bike lamps when exiting Mountain View Park? Better still, BAN night riding.... Or does that just take too much effort to enforce 😡 because a few "squeaky MTB wheels" in the woods demand DNV stand down, when they tried to ban night riding a few years ago? That doesn't cut it in my books!)

"The fight against the NSMBA/Mtn.Biking is tedious *(and why I have created my websites about the too many "crimes and misdemeanors" of MTB)*

To stand in opposition to something takes time and energy and yields little or no results and rarely brings immediate social credit *(in fact, it typically brings the opposite. "Thank you", for your past "patronage", DNV).*

Sooner or later most people become tired of being indignant and simply accommodate themselves to what appears to be an invincible force. *(Nothing is invincible -- What goes around, comes around. The truth prevails.)*

***They may not privately approve but they publicly acquiesce.** (Doing nothing to stop it is a complete cop-out!)*
